

```
1 #include <stdio.h>
2 #include <string.h>
3 struct msg {
4     long type;
5     char text[100];
6 };
7 int main() {
8     struct msg m;
9     m.type = 1;
10    printf("Enter message: ");
11    scanf("%s", m.text);
12    printf("Message sent\n");
13    printf("Received: %s\n", m.text);
14    return 0;
15 }
```

Enter message: hello

Message sent

Received: hello
